Safeguarding Policy

As professionals we all have a safeguarding duty to our students and sometimes that duty extends to physical contact, be that through administering first aid, comforting a distressed child or by making important technical corrections to support safe dance practise. Appropriate professional touch is often an essential part of teaching and can be beneficial as a kinaesthetic teaching strategy.

Here at Dance-A-Cise we will always:

- 1. Get to know our pupils
- 2. Communicate with pupils and parents
- 3. Be open, honest and keep no secrets
- 4. Know who to contact if we have concerns
- 5. Have a full regard for the safeguarding agenda
 - 6. Use professional judgement
