

Safeguarding Policy

As professionals we all have a safeguarding duty to our students and sometimes that duty extends to physical contact, be that through administering first aid, comforting a distressed child or by making important technical corrections to support safe dance practise. Appropriate professional touch is often an essential part of teaching and can be beneficial as a kinaesthetic teaching strategy.

Here at Dance-A-Cise we will always:

1. Get to know our pupils
2. Communicate with pupils and parents
3. Be open, honest and keep no secrets
4. Know who to contact if we have concerns
5. Have a full regard for the safeguarding agenda
6. Use professional judgement
